### DETAILED ACTION

1. Claims 1, 48, 50, 60, 68 are pending.

#### *Election/Restriction*

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claim 1 drawn respectively a method of treatment, classified for example in class 424, subclass 130.1.
  - II. Claims 48 drawn to a method of screening with antibody, classified for example in class 435, subclass 7.1.
  - III. Claims 50 drawn to a method of screening with a cell, classified for example in class 435, subclass 325.
  - IV. Claims 60 drawn to a method of detection, classified for example in class 435, subclass 7.2.
  - V. Claim 68 drawn to a kit, classified for example in class 424, subclass 130.1.
3. The inventions are distinct, each from the other because of the following reasons:
  4. Inventions V and I-IV are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the process for using the antibody can be practiced with alternative antibodies, nucleic acids or peptides and the products as claimed can be used

Art Unit: 1647

alternatively in a method of treatment, a method of screening compounds, and a method for detecting compositions.

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

6. Because these inventions are distinct for the reasons given above and the search required for any Group is not required for any other Group, restriction for examination purposes as indicated is proper.

7. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

8. Applicant is advised that the reply to this requirement to be complete must include an election of the invention and species to be examined even though the requirement be traversed (37 CFR 1.143).

9. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
